Mr. Wagoner:

It is imperative that funding be provided to allow for the "Columbia River Comprehensive Impact Assessment" to be implemented. We cannot allow to have explosions and catastrophic contamination of the region. There just are too many problems to be solved to not allow a substantive comprehensive analysis of the situation.

Please heed our pleas in the struggle to preserve our environment for not only us but our children and grandchildren. I know you will do the right thing and allow the assessments to continue.

Sincerely,

BOB ROBINSON
